WEIGHT	8840LBS

Rental vehicles are provided with safety and in complete operational condition. It is up to the renter in consultation with the Wayco sales and rental consultant to ensure that rental vehicles are suitable for the application for which they will be used. Factors effecting suitability include: operating environment, space considerations, lift height requirements, materials size and weight, load characteristics, load centres, travel distances, clearances, grades, terrain, air quality considerations, and hours of use per day.
